

ISO 9001

The scope of the management system:

The organization deploy all requirements in ISO9001:2015 and all products and services are covered by the quality management system.

Policy:

LaboGene commits itself to meeting the interests of owners and customers and to comply with the relevant national and international standards and regulatory requirements. LaboGene wishes based on our two main products to become the preferred 100% customer-specified supplier to white label customers, dominant niche players and market leading distributors. The company's quality management system subject for continuous improvements complies with the requirements of ISO9001:2015 and covers all the company's products and services.
